

Since July 12, 2006, Israel imposes a general siege on Lebanon through its airforce and war ships, denying access to humanitarian aids. With the continuous aggression, more people are being killed, disabled and displaced in a war that is aimed at Lebanon's people and its vital resources. Despite this racist Israeli rage one thing they will sure come to realize **lebanon cannot be contained**

**Call for an immediate cease fire to stop the Israeli massacres against Lebanese civilians**

**Human Life First Campaign**
